

Grundtvig Project

REPORT

# General publicity and list of best practices

*This project has been funded with support from the European Commission.  
This communication reflects the views only of the author, and the Commission cannot be held responsible for any use which may be made of the information contained therein.*

# Introduction

*The purpose of this report is to highlight a series of examples of how the Project may continue in the public domain and be used by a wider audience.*

*There are a number of methods uses, and this report by no means highlights them all. However, by having each partner highlight one approach, it is hoped that readers will be inspired as to how they too can participate in its wider use.*

# Fondazione Padre Alberto Mileno Onlus - ITALY

The following highlights one of the ways that Fondazione Padre Alberto Mileno utilised the outcomes on the TIPS project and used them for wider publicity, dissemination and best practice.

The materials outcamed from the TIPS project will be used in the everyday activities of the Study Centre for Dyslexia and SpLD of the Foundation Padre Alberto Mileno Onlus. So our staff can support our dyslexic users (and their parents) with a set of materials in order to let them improve their life with a dyslexic condition.

Our continuous activities in the Dyslexia environment give us a chance to spread the project's outcomes during conferences and events we will organize, with the collaboration of local TV and newspapers, blogs and forum.

Furthermore we published on our website all the project reports, together with the Italian versions of the study materials, in order to let the specialists and all the other operators in the field of dyslexia better know the work done with TIPS.

# SİLİFKE HALK EĞİTİM MERKEZİ VE AKŞAM SANAT OKULU - TURKEY

During our studies for Tips project, we realized that we need to promote public awareness about the dyslexia. So, for the further dissemination our first step will be to inform more parents and teachers about dyslexia.

-To promote awareness , workshops should be organised in local scope. Maybe an in-service training for parents and teachers might be proposed to National Agencies and if it is approved, qualified partners who deal with basically dyslexia might organise Comenius-Grundtvig in-service training. This kind of training course will open Project outcomes to international share and so the widest dissemination web.

-Each partner might prepare a 2014 calender which contains information about Tips Project and e-book content in a short and clear way and calenders might be delivered to local stakeholders.

-Also cups or magnets which have Project logo and website adress on it might be a functional dissemination tool.

# Bulgarian Dyslexia Association - Rousse, BULGARIA

The Bulgarian association of dyslexia-Rousse works in a close partnership with First National center of dyslexia. Center is the place where parents, teachers and who are interested can receive information, consultation and materials on the topic

In the everyday work of the center is going to disseminate the results from the project and information on brochures and cd of the book in Bulgarian. Similar information about the project and materials can be found on the Bulgarian version of the website.

English and German translations are published in the website of the center <http://dyslexia-center.eu/content/view/28/60/lang.en/> and on the website of EÖDL <http://www.legasthenie.at/ebook-tipps-fur-eltern/> and International Federation of dyslexia <http://www.ifdda.org/>.

The Austrian websites are the biggest blog for information on the topic. This will support the work of specialists, teachers and interested who speaks English and German to receive information about the children's difficulties whose native language is Bulgarian.

Multilanguage and dyslexia are problem that is coming to talk more , because of the new ways of mobility, work and living in European Union.

# CO.RI.S.S. - Cooperative Riunite Socio Sanitarie - ITALY

CO.RI.S.S. will disseminate and promote the project outcomes during the ordinary activities of the co-operative.

The organization will use the TIPS guide for parents within the Dislexia Center runned by the co-operative. A printed copy of the guide will be distributed to all the parents coming to the Center and the electronic version will be advertized as well.

Furthermore, the Guide will be publicized among the teachers of the primary schools of the territory.

CO.RI.S.S. web site will also be a useful tool for the diffusion of the outcomes and, more in general, of the TIPS project activities.

Finally, the organization website will be used to “keep the project alive” also in the next years, both among the former partnership and the wider community interested to know more about the dyslexia related topics.

# Euro-Idea Fundacja Społeczno-Kulturalna - POLAND

Euro-Idea Fundacja Społeczno-Kulturalna is a small nongovernmental organization.

Thanks to local partnership with two public institutions that support dyslexic children we are going to disseminate all project materials. The Psychological and Pedagogical Clinic is the biggest in the region of Malopolska. The clinic supports children, youth, parents, teachers, educators and make prevention and rehabilitation in child development disorders.

On our institution website you can find an interactive brochure about the project. Thanks to this material all interested in have an access to the all project results and outcomes.

[http://euroidea.files.wordpress.com/2012/08/web\\_tips-for-parents-of-dyslexic-child.pdf](http://euroidea.files.wordpress.com/2012/08/web_tips-for-parents-of-dyslexic-child.pdf)

To meet objectives of the project we decided to create a tool to permanent dissemination also useful for all interested in dyslexia issue.

It was possible thanks to easy accessible blog run in Polish language

<http://dysleksja-tips-llp.tumblr.com/> .

Tumblr allows people to easily share anything their want. Post text, photos, quotes, links, and videos from your browser, phone, email, desktop, or wherever you happen to be. Tumblr blogs are a great idea if you are just beginning your blogging efforts, as its quick and very easy to do. This makes it suitable to parents of dyslexic children that could be dyslexic too.

Tumblr is that there are 6 different ways you can blog: in text, photo, video, quotes, links and in instant message conversations.

The blog furnish information useful for dyslexic but at the same time disseminate a project e-learning materials and facilitate an access to free resources .

The blog allows to subscribe all interested in and share knowledge about dyslexia.

# Cultural Center of European Initiatives - SPAIN

During the project, our institution has been in contact with different institutions and associations about dislexia.

We have sent all information of the website, we have communicated all information that every partners has been published in the website, and we have invited to collaborate with their opinions, suggestiones, and to share experiences too.

We know that the official language of this project is english, so there are a few spanish institutions who has been in contact with other european of the project about dislexia to share experiences, knowledges, and create links and mailing list about the project to keep in contact for the future.

So we have sent the link of the website with all information of the project to all spanish institutions about dislexia, so we have sent information to different mailing list about education, association, training people, and all mailing list and phoros where dislexia can be an important point of interest.

So we have used linkedin for professional groups with dislexia as point of interest.

# ORGANIZATIA SALVATI COPIII - FILIALA DOLJ - ROMANIA

“Save the Children” organization, branch Dolj , Romania has proposed to use all the products obtained by the project with dyslexia benefit those who need these products. In this context has been known guide for parents of dyslexic children both in schools and rehabilitation centers for children with dyslexia.

“Save the Children” disseminated project results at an international conference held in Craiova and also in the press and tv newspapers, blogs and forum and organized a roundtable with the purpose to support parents of dyslexic children in hard work with these children, in home and in school and community.

In the interests of good dissemination of the project our organization created a website in Romanian language, with useful information about dyslexia and about how parents can meet each other and to help their dyslexic children to integrate into school and society.

Guide for Parents is a model of good practice, may be found on the project site in both English and Romanian language

[www.dyslexiatips.eu](http://www.dyslexiatips.eu),

<http://salvaticopiiidolj.net23.net/>

All interested can read useful information on this website.

In the dissemination activities, we had known best practices guide in schools, for teachers/educator who work with children with dyslexia.

We organized workshops in schools in order to exchange best practices and information about what is and how we can treat dyslexia and help children with dyslexia .

During these meetings was attended by specialists, psychologists and speech therapists who provided useful information attached parents and teachers working with children with dyslexia.

Also, our organization consider that the exchange of best practices between countries participating in the project has been very useful and added to the knowledge about dyslexia.
